

This week is Fix a Leak Week: We will be posting daily suggestions on how you might be able to find leaks in your home that you may not be aware of.

SUGGESTION #1: Flag down high water use. Review your water bill or login to your AMI Portal to review your water usage.

If you do not have one of our new AMI meters, contact us today to see if you qualify for the new AMI water meter.

You can also visit <https://www.epa.gov/watersense/fix-leak-week> to learn more.
