

## General Manager's Message

I hope everyone had a Merry Christmas and a Happy New Year! 2023 is shaping up to be a big year for Creedmoor Maha WSC.

The winters in Central Texas have been much colder than normal the last 3 years. We have experienced hard freezes regularly. Each time this has strained the water system from the many broken water lines. Here are a few tips to help you winterize your water lines and avoid broken pipes from freezing weather.

Ideally, the water line running from your meter to your house would be

buried at least 2 feet deep. This will insulate it from hard freezes.

If your waterline is exposed anywhere before it enters your home, wrap the pipe in insulation.

All outdoor hose bibs and faucets need to be wrapped in insulation or covered with a specially designed foam cup.

If you live in a modular home, it is important to have a skirt wrapped around the base of the house to keep cold air out. This will protect the pipes under your floor.

Stay Warm and safe and have a Happy New Year!

## Holiday Schedule

January 2: New Years Day Observance  
January 16: Martin Luther King Day  
February 20: President's Day  
April 7: Good Friday

## CMWSC Staff
