Creedmoor WSC will supply the backflow device and valve, which will be installed at the time of delivery. The customer is responsible for all supplies and equipment. To ensure protection of the water system and/or theft of water while in possession of the hydrant; each business day of using the construction meter, all equipment must be removed from hydrant meter with valves locked/tightened. Failure to do so may result in removal of the hydrant.

Please check your equipment frequently to continue to help promote conservation efforts. During any stage of a drought, be mindful of the required percent of water reduction.
